2019 Great Lakes School of Turfgrass Science

Live sessions will be held on Wednesday nights.
Participants will have the option to view the live or recorded sessions.

School format:

Participants will work through a total of 10 sessions during the 10-week program. Each session will include readings, a 1-hour recorded lecture, a live Q and A session, quizzes, and a final test. Participants completing all sessions will receive a certificate of completion for the 2019 school. The required work can be completed beyond the 10-week school period.

Sessions include:

- **Turfgrass identification, physiology and growth**
- **Soil science and management**
- **Selection and establishment**
- **Nutrition and fertility programming**
- **Mowing and additional cultural practices**
- **Irrigation**
- **Insect biology, identification and management**
- **Disease biology, identification and management**
- **Weed biology, identification and management**
- **Mathematics and calibration**
